ABSTRACT CLASSES

Inventory class :
Company, models
Cred and Doc

Add Customer					
customer name	text				
customer phone number	integer				
interested product	blob				
company interested	blob				
influenced through	blob				
dealer name	blob				
created on	timestamp				
updated on	timestamp				

User Credentials			
username	varchar(255)		
email	text(255)		
password	varchar(255)		

User Documents		
pan number	text	
pan photo	blob	

Inventory			
product name	varchar(255)		
product category	varchar(255)		
product quantity	integer(255)		

Dealer Inventory			
dealer name	binary		
inherited from	binary		

Add Dealer				
dealer name	text			
points	blob			
referrel code	text			
inherited from	blob			
inherited from	blob			

Company Inventory			
company name	blob		
Inherited from	blob		

Add Company				
company name	text			
dealer list	blob			
influencer list	blob			
customer list	blob			

Add Influencer					
influencer name	string				
points	float				
referrel code	string				
add customer	blob				
inherited from	string				
inherited from	string
